Safety Instructions:

- Set up securely to prevent the cabinet from tipping over.
- Do not load beyond the maximum weight of 77 kg.
- Check locks regularly for functionality and security.
- The cabinet offers only light fire protection (<30 minutes at max. 500°C); do not use as a safety room for flammable materials.
- Installation should be carried out by qualified personnel to ensure proper assembly and safety.
- Not suitable for use in extreme conditions or in the event of serious fires.
- Burglary protection: With insurance cover of up to €2,500, it is recommended that the cupboard is securely locked.
- Keep the key and electronic lock in a safe place to prevent unauthorised access.
- Cabinet is heavy (77 kg), take care during transport to avoid injury.
- Avoid overfilling the compartments to ensure the stability of the cupboard.
