Safety Instructions:

- Ensure that the cabinet is properly locked to prevent unauthorised opening.
- Monitor the temperature around the cabinet to ensure that the fireproof properties are maintained in extreme conditions.
- The use of the electronic lock requires careful handling of the available security technology in order to avoid accidental failure.
- Make sure that no heavy objects fall onto the cabinet during installation to avoid injury.
- If the cabinet has to be moved, repeat the check for damage after transport.
- Read the operating instructions in full to understand all safety instructions and how the product works.
- Observe fire protection for paper documents for up to 30 minutes at max. 500° C.
- Take care with heavy weights (152 kg) during transport and handling.
- The product with high-quality key lock has recommended insurance cover of up to €2,500; provide additional protection for valuable documents.
- Door construction with 3-sided boltwork offers high burglary protection; ensure that locks function properly.
- Use only for the intended purpose; improper use may present risks.
