Safety Instructions:

- Do not exceed the maximum load of 110 kg, as overloading can lead to structural failure.
- Use the chair in an upright position to avoid injury.
- Regular inspection of mechanics and adjustment mechanisms for functionality and wear.
- In the event of damage, discontinue use immediately and contact the manufacturer.
- Place the chair on level and stable ground to prevent it from tipping over.
- Children should not be left unattended in the vicinity of the chair; the chair is not suitable for children under 3 years of age due to the risk of choking on small parts.
- Use the synchronised mechanism to promote sitting comfort and dynamic sitting; adjust the backrest and seat individually.
- Deliver the chair safely assembled and have it assembled by the user according to the instructions.
- Use suitable cleaning methods for the fabric cover and clean the upholstery regularly to prevent mould growth.
- Keep the chair away from open flames and extreme temperatures.
- The maximum recommended sitting time is 8 hours to avoid health problems caused by prolonged sitting.
