### Safety Instructions:

- Adjust the height-adjustable armrests correctly to avoid shoulder and neck pain.
- Regularly check the backrest and seat for correct spring force and inclination.
- Do not exceed the maximum load of 110 kg. Make sure that the office chair is suitable for your body weight.
- Do not use the chair on uneven surfaces to prevent it from tipping over.
- Use double castors carefully on smooth floors to prevent them from sliding out.
- Do not pinch items of clothing or body parts when adjusting the mechanism.
- The product is only intended for sitting and must not be used as a climbing aid.
- Avoid sitting for long periods without breaks to prevent muscle tension. Observe the recommended sitting time of up to 8 hours.
- Use the height adjustment and backrest adjustment correctly to avoid back problems.
- Keep the workplace free of obstacles to prevent falls.
- Children should not use the office chair as it does not fulfil any safety requirements.
- Height-adjustable backrest can lead to injuries if used incorrectly.
- The synchronised mechanism can lead to back problems if used incorrectly.
- Regularly check the stability and safety, especially with a maximum load of 110 kg.
