Safety Instructions:

- Avoid sudden movements when adjusting the backrest to prevent injuries.
- The maximum load capacity is 110 kg; do not exceed this limit.
- Keep the chair away from sources of heat and moisture to prevent damage to the material.
- Only use the safety lift in accordance with the operating instructions.
- Make sure that all parts are correctly assembled to ensure the stability of the chair.
- Only use the chair for its intended purpose to avoid injury.
- Not suitable for persons over 110 kg to avoid safety risks.
- Make sure you adjust the seat height correctly to avoid back and neck pain.
- Ensure that the armrests and backrest are correctly adjusted to prevent tension.
- The chair is suitable for use on hard and carpeted floors, but care should be taken on uneven surfaces.
- Recommended sitting times of more than 8 hours can harbour health risks, so make sure you take regular breaks.
- Ensure that all moving parts are correctly fitted to avoid the risk of crushing.
- Ensure that the chair is adjusted to the correct height to avoid injury.
- Carry out regular maintenance and cleaning of the chair to ensure its longevity.
- Take care when using on uneven or slippery surfaces to minimise the risk of falling.
