Article Numbers: 825045, 825044

Safety Instructions:

- Follow the instructions for assembly, use and maintenance to avoid injury.
- Avoid overloading the case as this can lead to instability and cause injury due to excessive force or breakage of wheels.
- The integrated lock system and castors should be checked regularly for functionality, serviceability and possible wear.
- Make sure that the telescopic handle is fully locked before pulling the case.
- Keep the case away from moisture, extreme temperatures and external influences to prevent material damage.
- Make sure that the case is always securely closed to prevent accidental opening during transport.
- The case should only be used for its intended purpose in order to minimise safety risks.
