Article Numbers: 309083, 309082, 309075, 309074

Safety Instructions:

- Do not exceed the maximum load capacity of 750 kg. Please observe the maximum load capacity to avoid dangerous overloads.
- Correct handling is required for heavy loads to avoid the risk of tipping. Suitable aids such as a tipping container or stacking tipper should be used.
- Only use the product in the intended operating area and on stable, level surfaces.
- The tilting process must be triggered manually; for safety reasons, this should only be carried out by trained personnel in order to avoid injuries.
- Use suitable personal protective equipment (e.g. gloves and protective footwear).
- Ensure that there are no persons in the danger zone before tipping.
- All maintenance and repair work should only be carried out by qualified personnel.
- Carry out regular checks of the tipper rollers for damage and wear.
- Keep the surrounding area free of obstacles to avoid falls and collisions.
- Use at your own risk.
- Ensure that the contents are evenly distributed when emptying.
- When using forklift trucks, ensure correct handling to avoid accidents.
