Safety Instructions:

- Check the load capacity to avoid overloading.
- Ensure that the tipping process is only triggered manually; be careful when emptying with a forklift truck or with a heavy load.
- Use suitable lifting equipment, e.g. forklift trucks, for safe emptying.
- Secure the tipper against unintentional tipping during use.
- The product should be emptied with a tipping container or stacking tipper when heavily loaded to ensure stability and safety.
- Check the brakes and safety devices regularly, especially the TOTALSTOP central braking system.
- Use only with a forklift truck or designated tipping container to minimise the risk of accidents.
- Risk of suffocation due to improper use or improper handling.
- Risk of tipping over and injury during the tipping process.
- Wear protective equipment to prevent injuries.
- Recommended maximum load for the dumper truck: 800 kg.
- Be aware of the risk of slipping when tipping over, especially in wet conditions or on uneven surfaces.
- Secure the appliance after use, unsuitable personnel can cause accidents.
