

Product Safety Information

Grid trolley, internal, galvanised, 1185 x 785 mm

Please note the technical data of the products!

Article Number: 308948

Safety Instructions:

- Observe high load capacity of 450 kg, avoid overloading.
- When loading and unloading, use the swivel castor with brakes to prevent it from rolling away.
- Ensure sufficient stability during transport and correct manoeuvring.
- The product is designed for internal applications and should not be used outside of these.
- Observe suitable care and maintenance procedures for polyamide rollers in order to extend their service life.
