Safety Instructions:

- Choking hazard due to small parts that may fall off if used incorrectly.
- Battery safety instructions: 1.5 volt micro batteries (AAA) should be used in accordance with the instructions to prevent overheating and leakage.
- Make sure that the torch is not immersed in water, as it is splash-proof (IPX4) but not suitable for submersion.
- The torch should not be left within reach of children to avoid accidental swallowing of the batteries or attachments.
- To minimise the risk of fire, avoid using the appliance near flammable materials for long periods of time.
