Safety Instructions:

- Please note that the product can support high loads, but stability must always be guaranteed during transport.
- Avoid direct contact with sharp objects that could damage the material.
- Ensure that the drip tray is placed on a stable and level surface to prevent it from tipping over.
- Ensure that no excessive weights are placed on the tray that exceed the load capacity.
- Regular inspections of the structure and rollers are required to ensure that there is no wear and tear.
- Ensure that the grating is cleaned regularly to prevent an unhygienic accumulation of substances.
- Avoid overloading the drip tray, as the load capacity of 620 kg must not be exceeded.
- Keep the drip tray out of the reach of children to prevent injury.
- Follow the instructions for handling and transporting the product to avoid accidents.
- Do not load the product above the permitted weight of 620 kg.
- Only use the drip tray in the intended area of use.
- Always use both swivel castors for safety during transport.
- Check the drip tray regularly for cracks and damage.
