### Safety Instructions:

- Keep liquids away from the table surface and electrical connections to prevent damage and short circuits.
- When installing, ensure that the screws are positioned correctly to guarantee stability. Follow the instructions carefully.
- Do not use the table as a ladder or buoyancy aid. Only use on stable, level surfaces.
- Children should be kept away from the table to avoid injury from falling or small parts.
- Do not use harsh cleaning agents to avoid damaging the table surface. Regular cleaning and maintenance recommended.
- Ensure that the product conforms to safety standards and is accompanied by clear, understandable instructions.
- Monitor storage and transport conditions to ensure product safety; regular safety assessment.
- Inform consumers about safety-related information and product recalls.
- Ensure safe use of electrical components to avoid the risk of electric shock. Regularly check for damage.
- Ensure that the table connection panel is installed and used correctly to avoid short circuits and overloads.
- Sharp edges or untreated surfaces can cause injuries; exercise caution.
- Do not use the table as a support for heavy objects. Avoid overloading to ensure stability.
- Adjust the floor levelling screws correctly to prevent tilting and wobbling; use non-slip glides.
- Check the product regularly for visible defects and file a complaint if necessary.
