Safety Instructions:

- Please ensure that the cupboard is not overloaded, the maximum load per shelf is 100 kg.
- Take care when opening and closing the cabinet doors to avoid damaging the sound-absorbing rubber bumpers.
- Ensure that the cabinet is placed on a stable and level surface to prevent it from tipping over.
- Use only for its intended purpose; improper use may result in injury.
- The cabinet should be placed out of the reach of children in order to avoid hazards due to improper use.
- Always use the security cylinder locks to prevent unauthorised access.
- When installing, make sure that it is correctly anchored to the wall to ensure additional stability.
- Before transport or assembly, ensure that all parts are intact to avoid injury.
- Do not install the cabinet near heat sources or in damp environments.
- Check the product regularly for damage and discontinue use if there is visible damage.
- Regularly check the condition of the double doors and the safety cylinder lock to ensure that they are working properly.
- Ensure that the doors of the cabinet are always fully closed to prevent accidents.
