## Safety Instructions:

- Ensure that the cabinet is stable and properly secured to the walls to prevent it from tipping over.
- Do not exceed the maximum load of 100 kg per shelf to ensure stability.
- Keep the push rod lock functional to prevent unauthorised access.
- Place the cabinet securely and stably on a level surface to prevent it from tipping over.
- Check the cabinet regularly for damage and safety defects in order to minimise safety risks.
- Observe protective measures against sharp edges to avoid the risk of injury.
- Keep the key to the security cylinder lock in a safe place to prevent loss.
- Check the material cabinet for stability before use.
- Keep the cabinet away from moisture, extreme temperatures and direct sunlight to prevent material damage.
- No children should have unauthorised access to the cupboard.
- Follow the instructions supplied when installing to avoid accidents.
- Use a security cylinder lock to prevent unauthorised access.
