Article Numbers: 440789, 440787, 440786, 440785, 440782, 440781

Safety Instructions:

- Ensure that the open-fronted storage bins are securely positioned in the cabinet to prevent them from tipping over.
- Do not exceed a weight of 50 kg per shelf to avoid structural and stability problems.
- Take care when opening the double doors to avoid crushing injuries.
- Always close the double doors to prevent accidents caused by tripping or unauthorised access.
- Protect the cabinet from direct exposure to water to prevent corrosion. Do not use near water sources or in a damp environment.
- Caution: Cupboard is heavy, ask for support when lifting.
- The structures are sharp-edged, risk of injury during assembly.
- Choking hazard due to small parts if used incorrectly.
- Mount the cabinet securely and place it on a stable, even surface to prevent it from tipping or falling over.
- Keep keys safe: The lockable doors protect against unauthorised access; the keys should therefore be stored securely and only operated by adults.
- Child safety lock: Additional precautions for use by children to prevent unauthorised opening.
- Do not overload the shelves: Do not exceed a load capacity of 50 kg per shelf.
- The cabinet is not suitable for storing hazardous materials. Avoid contents of hazardous chemicals.
