Safety Instructions:

- Ensure that the product is stable to prevent it from tipping over.
- Do not use in damp or wet environments to prevent material damage.
- Observe the maximum load of 50 kg per shelf to avoid overloading and damage.
- Sharp edges and corners can cause injuries; exercise caution.
- Provide and explain clear instructions for safe use.
- Small parts should be stored safely to avoid the risk of suffocation and injury.
- Care should be taken when handling hinged doors to prevent crushing.
- Secure the cabinet against tipping over and place it on a stable, level surface.
- Use only for the intended purpose and do not overload.
- Regular inspection for damage and immediate contact with the manufacturer if necessary.
- Check cupboards regularly for stability and make them childproof if children are present.
- The cabinet is heavy (59 kg); take care during transport.
- Not waterproof; avoid contact with water to prevent corrosion.
