**E-Mail:** info@topstar.de

Please note the technical data of the products!

**Article Numbers:** 140993, 140992, 140991

### Safety Instructions:

- Check the safety settings of the swivel chair to ensure that they meet the general safety requirements.
- Use the chair on a stable surface to prevent it from tipping over.
- Maximum load capacity of the chair: 110 kg, exceeding this can lead to structural damage.
- Take precautions when adjusting the height to avoid crushing your fingers.
- Avoid using the armrests to stand up, as they may not be stable enough.
- Only suitable for use by adults or under adult supervision.
- Avoid excessive lifting or pulling on the armrests to prevent damage.
- When using for more than 8 hours, take regular breaks to avoid fatigue.
- Take care when cleaning to avoid damaging the fabric cover.
- Risk of suffocation due to loose parts during use.
- Risk of slipping on smooth surfaces, especially without suitable castors.
- Keep the chair away from children as it is not suitable for them.
