**Article Numbers:** 143788, 143787, 143786, 143785

### Safety Instructions:

- The chair is only suitable for users weighing up to 130 kg. Use above this weight may jeopardise the stability and pose a risk of injury.
- Using the product for more than the recommended sitting time of 8 hours a day can harbour health risks. Sitting times should therefore be observed in order to avoid discomfort.
- Before installation, the packaging should be checked for damage and care must be taken to provide a suitable base to avoid injury.
- Assembly does not require any tools and should be carried out in accordance with the instructions. Improper assembly can jeopardise the stability of the chair, so follow the instructions carefully.
- All parts must be assembled correctly to ensure stability and safety and to prevent injuries.
- The chair is not designed for commercial use unless it has been expressly tested for this purpose.
- Ensure that the chair is used on a stable and level surface to prevent it from tipping over.
- Regular inspection of the mechanics and adjustable parts (e.g. armrests, seat height, inclination) for functionality, wear and tear and tight fit is required.
- Children should not play unsupervised near the chair.
- Ensure suitable surfaces for the double castors to minimise the risk of falling.
- Ensure that there are no objects in the vicinity that could cause injury when the chair is moved.
- The product should only be used in accordance with its intended use.
- Check safety mechanisms such as the safety lift before use to ensure safety.
