Safety Instructions:

- Observe the safety information and follow the manufacturer's instructions if necessary.
- Ensure that the cupboard is stable and cannot tip over, especially when used by children.
- Read the assembly instructions carefully before first use and check that all screws and connecting elements are tight.
- Lock the cylinder lock securely and ensure correct installation to prevent unauthorised access.
- If the cabinet is damaged or malfunctions, stop using it and contact the manufacturer.
- Safe assembly and installation required to avoid injury.
- Take particular care when opening the doors to avoid the risk of crushing.
- Check coat hooks regularly for wear and do not overload them to minimise the risk of injury.
- The product must not be used for children under 14 years of age.
- Do not overload the cabinet to ensure stability and do not place heavy objects in an unstable position.
- Avoid using the cabinet as a climbing or descending aid.
- The cabinet must be checked regularly for stability and safety.
- Avoid using cooling spray or aggressive chemicals on the powder coating.
- Risk of suffocation due to improper use of the coat hooks.
- Risk of crushing due to the hinged doors of the cabinet.
- Always pull the door fully closed to prevent the hooks from slipping off.
- When opening the door of the cupboard, bear in mind that heavy objects can fall through the door.
