Safety Instructions:

- When setting up the table, make sure that it is placed on a stable and level surface to prevent it from tipping or falling over.
- Only use the table in the intended commercial environment and, if necessary, note the small height adjustments depending on your height.
- The worktop should be raised or lowered carefully and in a controlled manner to avoid injury.
- Keep all cables and lines away from sharp edges to avoid damage that could lead to electrical hazards.
- Store heavy objects securely on the shelves to avoid overloading and possible structural damage.
- Ensure that small items that could potentially be lost are stowed away safely to avoid the risk of falling.
- Observe the maximum surface load of 300 kilograms and do not exceed this.
- Ensure that the table is checked regularly for loose parts or damage to ensure safety.
