Safety Instructions:

- Caution! Test on a non-visible area before cleaning with disinfectant.
- Use of plastic floor glides to prevent damage to the floor.
- Ensure that the product is correctly assembled to ensure stability.
- Designed for commercial use, but be aware of potential hazards for consumers.
- Do not use sharp objects near the product to avoid damage.
- Avoiding the risk of falling: pay attention to seat height and stability during use.
- Regularly check that the structure of the chair is stable and intact to prevent it from tipping over or breaking.
- Make sure that the chair is used on a level surface to prevent it from wobbling or tipping over.
- Observe the maximum stacking quantity of 10 chairs to ensure stability. Risk of injury and instability if exceeded.
- Small parts in the design can pose a choking hazard if used incorrectly.
- Risk of slipping due to insufficient grip.
- Seat shell made of laminated beech wood, so that there are no sharp edges.
- Place on a non-slip surface on smooth floors to prevent tipping over.
