Please note the technical data of the products!

**Article Number:** 135001

### **Safety Instructions:**

- Store the product in a dry place to prevent rusting.
- Avoid direct sunlight to prevent discolouration of the material.
- The door of the cabinet should never be subjected to excessive loads in order to minimise the risk of tapering or deformation.
- The cabinet is not suitable for storing flammable or explosive materials.
- Always lock the cabinet when it is not in use to prevent access by unauthorised persons.
- If handled and installed correctly, no particular hazards are to be expected.
