Article Number: 309109

Safety Instructions:

- Risk of suffocation due to improper handling of the stretcher
- Risk management recommended, especially for people with physical limitations
- The stretcher should only be used by trained personnel
- Check usability and stability before each use
- Ensure that the stretcher is not overloaded to prevent injuries
- Exercise caution with regard to outdoor operating conditions due to the rot-resistant materials
- Regular cleaning and disinfection of the man-made fibre fabrics to maintain hygiene
