Safety Instructions:

- Only use the mobile pedestal on level surfaces to prevent it from tipping over and to ensure stability.
- The maximum permissible load on the drawers of 18 kg per drawer must not be exceeded in order to ensure stability and prevent damage or injury.
- Activate the pull-out stop to prevent the drawers from being pulled out or falling out unintentionally.
- Prevent children from playing with the mobile pedestal, as moving parts can pose a risk of injury.
- Keep the roller container away from water and moisture to prevent damage.
- Take safety precautions when transporting the roll container to avoid injury.
- Use the locking function on the castors to prevent the container from rolling away, especially on uneven floors.
- Ensure that all parts are firmly in place to prevent the mobile container from tipping over.
- Regularly inspect the rollers for wear to ensure they are functioning properly.
- Ensure safe and ergonomic use, especially when pulling or pushing the container.
- The product must be designed and manufactured in accordance with the general safety requirements of the General Product Safety Regulation.
- Clear instructions and safety information must be provided in language that consumers can understand.
