Safety Instructions:

- Maximum load of the front wheel carrier: 50 kg. Do not exceed this.
- Observe safety precautions when driving, especially in wet or slippery conditions.
- Protective clothing, including non-slip shoes and a helmet, is recommended.
- Make sure that the lighting system is working before using the bike in poor light conditions.
- Check brakes and other safety components regularly.
- Only suitable for adults or young people of a suitable height. Children should not use the bike.
- Ensure that you act safely when mounting and dismounting.
- Risk of suffocation due to loose or improperly used parts such as pedals or accessories.
- Risk of falling if the front wheel stand is not mounted correctly or if the load carrier is overloaded.
- Risk of injury due to improper handling of moving parts, especially the drum brake.
- Ensure that all mounting elements are firmly tightened before the bike is used.
- Ensure that the saddle and handlebars are correctly adjusted.
- Avoid fast driving on uneven surfaces.
- Use non-slip pedals and ensure a secure footing.
