Article Numbers: 309095, 309094

Safety Instructions:

- Drive carefully in the dark, as there may be no reflections, and make sure you have sufficient lighting to ensure visibility.
- When transporting heavy loads, ensure even distribution to prevent the bike from tipping over and to avoid excessive strain on the load carrier.
- Using the bike on gravel or uneven paths can impair stability; only use the transport bike on paved paths.
- Regularly check possible damage to brakes, tyres and other safety-relevant components of the bike.
- Improper installation of the pedals and load carrier can lead to injuries; follow the instructions carefully.
- The bike is not suitable for children under the age of 14 and should only be used under the supervision of an adult.
- The bike has a low entry, which reduces the risk of falling.
- Make sure that there are no small parts on the floor during assembly to avoid the risk of suffocation.
