Safety Instructions:

- Make sure that the bike is parked on a stable surface to prevent it from tipping over.
- Use the bike in accordance with the manufacturer's instructions, especially when transporting loads.
- Regularly check the condition of the brakes, lights and tyre pressure.
- Always wear a helmet and suitable protective clothing.
- Ensure that no excessive loads are transported that exceed the permissible load capacity.
- Fasten loose objects securely to prevent them from falling while driving.
- The wheel should only be adjusted by a person with specialist knowledge to ensure safety.
- Warning glasses and reflectors should always be intact and visible to ensure visibility in road traffic.
- Make sure that the bike is properly assembled, especially the pedals and the load carrier.
- Do not use the bike in bad weather conditions, such as heavy rain or snow.
- Keep the bike away from children and pets when it is not in use.
