Safety Instructions:

- Maximum drawer load: 40 kg. Do not overload to prevent damage and tipping of the cabinet.
- Secure against tipping over: The cabinet must stand on a stable base. Use additional stabilisation if necessary.
- Open drawers carefully and with both hands to avoid slipping and crushing. Use the pull-out stop to prevent unintentional removal.
- Keep children under 12 years away. Product is not suitable for children to avoid injury.
- Floor protection: Use standard underlays or plastic glides.
- Make sure that the plan cabinet is placed on a stable surface to prevent it from falling.
- Use the centre lock to ensure safe storage when not in use.
- Finger safety: Avoid trapped fingers when closing the drawers.
- Avoid damaging the surfaces with unsuitable products.
- Take suitable safety precautions during installation or transport.
- Warning: Make sure that the drawers can be pulled out completely to avoid instability.
- Choking hazard due to small parts if used improperly.
- Secure the area around the plan cabinet from obstacles to prevent accidents.
