Please note the technical data of the products!

Article Numbers: 134754, 134753, 134752, 134751, 134750

Safety Instructions:

- Only use containers on stable, level surfaces to prevent them from tipping over.
- Check the pressure relief valve and seals regularly and ensure that they are functioning correctly.
- Keep away from sources of ignition and naked flames as the container contains flammable liquids.
- Keep the tap closed when not in use and check the seal to prevent leaks.
- Do not overfill the container and check the level indicator to avoid overflowing.
- Use only for authorised and suitable flammable liquids.
- Fill and store the product in well-ventilated areas to minimise the risk of vapours.
- Wear appropriate personal protective equipment (PPE), including gloves and goggles/face shield to avoid direct contact.
- Ensure that the safety vessel is suitable for the respective fuel.
- Only trained persons should operate the safety vessel.
- Eliminate any leaks immediately and take measures to avert danger.
- Store and dispose of product in accordance with applicable technical rules and regulations.
- Observe manufacturer's instructions and safety data sheets.
