Safety Instructions:

- Take care when handling flammable liquids. Take the necessary safety precautions and use heat-resistant gloves.
- Be sure to use containers only as described by the manufacturer and for their intended purpose. Use with approved liquids and according to instructions to prevent overflow or spillage.
- Close the container tightly after use and ensure that there is no fire, naked flames or sparks in the vicinity. In the event of ignition, evacuate and provide suitable extinguishing agents.
- Keep lid securely closed in case of fire. Container secured by fusible link, closes automatically in the event of fire.
- Do not store or use near heat sources, naked flames or sparks. Only use outdoors or in well-ventilated areas.
- Regular inspections of the tightness and overall condition of the container are necessary. Use tested safety products in accordance with FM or TÜV standards.
- Keep out of the reach of children.
- Be aware of possible danger from chemical reactions with cleaning agents.
