Safety Instructions:

- Ensure that the top cabinet is stable and stands on a stable, level surface to prevent it from tipping over.
- Do not place heavy or excessive loads on the shelves. Do not exceed the maximum load of 50 kg per shelf to prevent overloading.
- Ensure that the lock works properly and is regularly checked for functionality to guarantee the security of the contents.
- The cabinet is not designed for outdoor use. Only use it indoors.
- Keep the cabinet away from heat sources and direct sunlight to prevent damage to the powder coating.
- Be aware of possible sharp edges or surfaces of the cabinet to avoid injury, especially during transport and assembly.
- Child safety instructions: Keep small children away from the cabinets to avoid accidents, especially near keys.
- Carry out regular inspections for wear and damage to ensure safety.
- Before use, ensure that all screws and connections are firmly tightened.
- Caution: There is a risk of injury if used incorrectly.
