Safety Instructions:

- Risk of injury due to heavy lifting or improper handling. Lift correctly and use suitable aids.
- Do not fill the bin beyond the maximum capacity to avoid tipping and overflowing.
- Keep the dustbin on a level surface to prevent it from tipping over.
- Keep children away from the waste bin to avoid injury and the risk of suffocation.
- Proper maintenance and cleaning of the waste bin are necessary to ensure hygiene and safety.
- Avoid sharp or heavy objects in the bin to prevent damage.
- Do not place the waste bin near naked flames or heat sources to avoid the risk of fire.
- Only use the waste bin for the intended waste; do not put any hazardous or contaminated materials in it.
- Observe the specific disposal instructions for hazardous waste and the local regulations on waste separation.
- Ensure that the wheels of the bin are in good working order to avoid accidents.
- Avoid the risk of overturning in strong winds, park the bin safely.
- Not suitable for children under 3 years of age due to small parts that could cause a choking hazard.
- Take care with electrical components; carry out regular checks to avoid the risk of electric shock.
- Take safety precautions when using near roads or traffic.
- In the event of improper handling, be aware of the risk of slipping due to waste or moisture around the bin.
- Be aware of the risk of injury from sharp edges or moving parts and use protective equipment if necessary.
- Take particular care in strong winds or uneven terrain to ensure stability.
- The use of the waste bin outdoors under consideration of the weather conditions; protection against frost below 0°C is necessary.
