Safety Instructions:

- Clear instructions and safety information must be included for the safe use of the shelf. The product must not be used as a staircase or climbing aid and should be used under appropriate supervision, especially around children.
- The maximum load on the shelves of 50 kg must not be exceeded in order to avoid structural damage.
- The shelf should be placed on a stable and level surface and securely fastened to the wall to prevent it from tipping over.
- When assembling the shelf, the enclosed instructions should be followed exactly to ensure safe use.
- Regular inspection of the shelving for wear or damage is necessary to ensure safety.
- The shelf should not be installed in the immediate vicinity of heat sources or damp environments.
- Harsh chemicals should not be used when cleaning the powder coating in order to avoid damage.
- To ensure safe transport, the shelving should never be lifted by the shelves, but always by the frame elements.
- Safe handling instructions and assembly instructions should always be included with the product.
