Safety Instructions:

- Check the product for safety and stability before placing it on the market.
- Do not overload the shelf, keep to a maximum of 50 kg per shelf.
- Place the shelf in a stable location and on a level surface to prevent it from tipping over.
- Before assembly, ensure that all parts are present and follow the assembly instructions exactly to ensure safety.
- Assembly and movement of the shelving should be carried out by at least two people.
- Warnings and safety information must be clearly visible on the product.
- Product to be used by adults only, supervision required when used by children as it is not suitable for children.
- Keep the shelf away from moisture, heat sources and extreme temperatures to prevent material damage.
- For indoor use only, not suitable for outdoor use.
- The use of safety gloves is recommended to prevent injuries during installation.
- Check regularly for damage and take appropriate measures if necessary.
- Do not use the shelf as a staircase or work surface as there is a risk of injury.
- Stay alert to the risk of scratches on the powder coating that could cause sharp edges.
- Ensure even weight distribution when adjusting the height of the shelves.
