Safety Instructions:

- Ensure that the cabinet is stable and on a level surface to prevent it from tipping over.
- Be aware of the risk of injury when handling the cabinet.
- The cabinet should only be assembled and used by adults.
- Maximum load capacity of the shelves: 50 kg. Do not overload to avoid stability and damage.
- Use only for the intended purpose (storage of files and folders).
- Before use, ensure that all parts are properly assembled.
- Do not overload the cabinet doors.
- Observe safety measures during assembly and transport to avoid injuries.
- Ensure that the keys are handled securely to prevent unauthorised access.
- Check the transport routes to the installation site, as the cabinet is delivered assembled.
- Protect the product from moisture and extreme temperatures.
- Do not use sharp objects or chemicals on the cabinet.
- Keep the cabinet away from water sources to prevent rust formation.
- Cabinet is heavy, use suitable lifting equipment to avoid injury.
- Product must not be used by children under 3 years of age to avoid injury from improper use.
- Secure cabinet against unauthorised access with lockable mechanism.
- Ensure that the shelves are adjusted to the correct height.
- Cabinet must be free-standing for stability.
- Keep the cabinet away from direct heat sources to maximise its service life.
