### Safety Instructions:

- Do not load the cupboard above the maximum load of 50 kg per shelf.
- The cabinet must be set up stably to prevent it from tipping over.
- Do not use the cupboard as a base to prevent it from tipping over.
- Ensure that children do not play with or climb on the cabinet to avoid the risk of injury.
- Do not place the cupboard near children if used incorrectly, as small parts can increase the risk of suffocation.
- The installation and safety instructions must be observed before use.
- Lockable due to the push bar lock with rotary handle and interchangeable cylinder lock; use the keys supplied with care.
- Please note that the cabinet is designed for office and sheltered environments and should be protected from direct sunlight and moisture.
- Check the transport routes to the installation site and transport the cabinet carefully to avoid damage.
- Check suitable access points for transport, as the cabinet is delivered assembled and can be heavy.
- Make sure the rubber bumpers on the doors are soundproofed to minimise noise.
- The cabinet contains no small parts, but is intended for use by adults or under adult supervision.
- Take care when assembling with long screws or bolts to avoid the risk of injury.
- The installation site should be checked for accessibility and sufficient space for use.
- Observe safety requirements in accordance with the applicable EU standards.
- Stability may be jeopardised if the appliance is installed on uneven ground.
