Safety Instructions:

- When transporting and setting up the cabinet, be aware of the possible risk of injury due to careless lifting.
- Do not use the sliding doors with excessive force to avoid damage.
- The cabinet is delivered assembled; please check the transport route and the floor space before delivery.
- The product is designed for indoor use. Avoid using the product outdoors.
- Corrosion can occur if the powder coating is damaged. Keep the surfaces clean and undamaged.
- The metal bow handles should be checked regularly to ensure that they are firmly seated.
- Take care not to store any heavy objects that exceed the load capacity of the shelves. The load capacity of 50 kg per shelf must be observed to ensure stability and safety.
- Please note that a solid base is required to ensure the long-term stability of the cabinet.
- The sliding doors are fitted with a removable cylinder lock; please always ensure that it cannot be opened without authorisation.
- When setting the height-adjustable shelves, make sure that they are correctly adjusted and stable.
- Ensure that the cabinet is placed on a stable and level surface to prevent it from tipping or falling over.
