Safety Instructions:

- Ensure that all drawers are inserted correctly to prevent the cabinet from tipping over.
- Use the pull-out stop and do not deactivate it to prevent several drawers from opening at the same time and to prevent them from tipping over.
- Always use the cylinder lock and check it regularly to prevent unauthorised access.
- Use chocks on uneven floors to ensure the stability of the cupboard. The cabinet should be placed on level surfaces.
- Do not exceed the maximum load of 55 kg per drawer to avoid overloading and tipping.
- Do not sit or stand on the cabinet to avoid injury.
- Follow the enclosed instructions carefully during installation to ensure safety.
- To avoid injury when opening the drawers, prefer even and careful handling.
- Keep children away from the cabinet to minimise the risk of injury from pinching.
