Please note the technical data of the products!

Article Numbers: 194158, 194157, 194156, 194155, 194154

Safety Instructions:

- Observe the maximum load on the shelves: 50 kg per shelf to prevent overloading and ensure stability.
- Place the cabinet on a stable and level surface to prevent it from tipping over. If used incorrectly, the cabinet may tip over; increase stability by anchoring to the wall.
- Use a removable cylinder lock and maintain it regularly to prevent unauthorised access and ensure trouble-free operation.
- Product is not suitable for children; children should be kept away due to the risk of injury from improper use and small parts that may pose a choking hazard.
- Before moving the cabinet, ensure that it is completely empty to avoid injury.
- Do not install the cabinet in humid or extremely hot environments to avoid material damage.
- Observe the general care instructions for powder-coated surfaces to ensure a long service life.
- When opening the sliding doors, make sure that the area is clear of objects to avoid injury.
- Cabinet doors should be securely locked to prevent accidents.
