Article Numbers: 44901, 44897, 44893, 135283, 135282, 135281

Safety Instructions:

- The changing bench must be stable on a surface to prevent it from tipping over. Use anti-slip devices or height-adjustable glides.
- Avoid overloading the bench to prevent material fatigue, breakage or tipping over.
- Make sure that sharp edges or protruding parts are removed to avoid injury.
- Regular inspection and maintenance of the bench and glides, especially in public facilities or wet rooms, is essential.
- The installation instructions must be followed to ensure safe and correct installation and to minimise safety risks.
- Suitable for outdoor use or in wet rooms, but protect from extreme weather conditions.
- Please note that children should be supervised to prevent potential hazards.
- For commercial use, ensure that the bench is suitable for intensive use.
- Avoid use in extreme temperatures or aggressive chemicals.
