Safety Instructions:

- Observe the maximum surface load of 600 kg to avoid overloading or structural damage.
- Avoid the risk of suffocation due to improper handling of small parts and the height-adjustable function.
- Risk of electric shock due to improper installation, use or damage to the electrical components.
- Risk of injury due to improper use or overloading of the worktable.
- Only adults should carry out the electrical adjustment. Improper use can lead to injuries.
- The integrated electronics must be protected from moisture to prevent short circuits.
- Use levelling feet to ensure stability on uneven floors.
- Use the table on a stable and level surface to prevent it from tipping over or slipping.
- Before use, ensure that the worktable is stable and that all components are correctly assembled.
- The height adjustment should be carried out without blocking objects or body parts in the area of the lifting columns.
- Keep children away from moving parts to prevent injury.
- The table is only suitable for indoor use and the intended use.
- Regular inspection of electrical and mechanical parts for safe operation.
- Carefully read and observe the operating instructions and the safety instructions contained therein.
