Safety Instructions:

- Ensure that the drawers are not overloaded. Maximum load capacity per drawer: 100 kg.
- The manufacturer's instructions must be followed exactly when fitting the drawer unit to the worktable.
- Use the lock to secure the drawers to prevent unauthorised access to tools and materials.
- Care must be taken when using sharp tools or heavy materials to avoid injury.
- Ensure that the drawer unit is positioned on a stable and level surface to prevent it from tipping over.
- The drawers are not suitable for children under 3 years of age as they are not toys due to their size and structure.
- Assembly should only be carried out by qualified personnel to ensure secure attachment to the worktable.
- The use of highly abrasive cleaning agents should be avoided in order not to damage the powder coating.
- Do not close drawers with excessive force to avoid damage and possible injury.
- Keep the key for the central locking system in a safe place to prevent unauthorised access.
