Safety Instructions:

- Ensure that the workshop trolley is only used on a stable, level surface.
- The workshop trolley is designed for a maximum load of 400 kg; do not exceed this to avoid injury.
- Always keep the drawer safety stop system in operation to prevent unintentional opening of the drawers during transport.
- Avoid moving the workshop trolley with accessible drawers to prevent the tools from falling out.
- The use of suitable tools when servicing the workshop trolley is essential to avoid injury.
- Make sure that the wheels and brakes are checked regularly to ensure that they are in good working order before the trolley is used.
