Safety Instructions:

- The product should be used under adult supervision, especially for older people with disabilities.
- Avoid contact with water or other liquids, as this can damage the device.
- The phone should be kept out of the reach of small children and pets to prevent small parts from being accidentally swallowed.
- Ensure that the appliance is used in a well-ventilated environment to avoid overheating.
- Read the operating instructions carefully before use in order to understand all functions and safety information.
