Safety Instructions:

- Avoid contact with water during the charging process and do not use the product in damp environments to prevent short circuits and damage.
- Make sure that the charging surface is free of foreign objects before you put the smartphone down.
- Check the cable regularly for damage and only use the USB cable supplied or one recommended by a trustworthy provider.
- Keep the product out of the reach of children and note that it is not suitable for use by children under 3 years of age (caution: choking hazard due to small parts).
- Caution: Use this product at your own risk. To ensure safety, do not overcharge the induction charger and, as a precaution, avoid overheating or damaging the device.
- Caution: Risk of electric shock if the induction charger is used incorrectly.
- Note: Only use for devices with an inductive charging receiver. Take care not to use the device on flammable surfaces and ensure that it is stable to prevent it from tipping over.
- Pen tray should only be used with compatible devices.
- The white and coloured material may change colour over time.
