Please note the technical data of the products!

Article Numbers: 156938, 156736, 156735, 156734, 156733

Safety Instructions:

- Risk of suffocation due to improper use of the height adjustment. Be careful when adjusting the height to avoid injury and ensure that the workbench is securely fixed and no body parts are trapped.
- Risk of tipping over if handled incorrectly, especially at maximum height. Ensure that the workbench is stable and on a level surface to prevent it from tipping over.
- Do not exceed the maximum load of 1250 kg. Avoid overloading and do not use the workbench beyond the maximum surface load.
- Be aware of the risk of injury from moving parts during height adjustment.
- Risk of slipping on smooth floors, even if anti-slip studs are present. Ensure that the anti-slip studs are intact and functional.
- Keep children away from the workbench to avoid injury. The workbench should not be used as a playground.
- Check the stability of the workbench before use. Regularly check the stable feet and anti-slip studs to ensure a secure stand.
- Keep the work area free of obstacles to prevent falls and other accidents.
- We recommend wearing closed safety shoes when using the workbench.
- The workbench may only be used for its intended purpose.
- Please note that there is a risk of injury if the workbench is used incorrectly.
