Article Numbers: 156741, 156740, 156739, 156738, 156737

Safety Instructions:

- Do not exceed the maximum surface load of 450 kg to avoid structural damage or injury.
- Before transporting, activate the castor brakes to prevent unintentional rolling away. Ensure that the workbench is only used on stable, level surfaces.
- When installing the bow handle, ensure that it is correctly attached and make sure that all parts are correctly fitted before first use.
- Carefully read the safety information and instructions for use in the enclosed documentation and use the workbench in accordance with its specifications.
- The workbench is not suitable as a toy, caution should be exercised when used by children.
- Due to the sanded and oiled surface of the beech wood, avoid slippery conditions; ensure suitable working conditions.
- Keep the area around the workbench free of obstacles to minimise the risk of falling.
- The workbench can tip over or cause structural damage if handled incorrectly or overloaded.
- The workbench is designed for commercial use; ensure that all users are aware of the safety guidelines.
- The large surface of the workbench can cause fingers or body parts to become trapped; ensure safe handling.
- There is a risk of suffocation and injury if the workbench is used incorrectly.
