Article Numbers: 156766, 156765, 156764, 156763, 156762

Safety Instructions:

- Ensure that the workbench is placed on a stable, level surface to prevent it from tipping over.
- The maximum load capacity of the worktop is 450 kg, which must not be exceeded.
- The suspended drawer has a maximum load capacity of 50 kg and must not be overloaded.
- Use the brakes on the castors to prevent the workbench from rolling away unintentionally and check that the castors are in good working order at regular intervals.
- Keep children away from the workbench to avoid injury.
- Avoid heavy lifting, especially when transporting the workbench, and use the handle provided.
- There is a risk of suffocation due to improper handling of small parts and use of the hanging drawer.
- There is a risk of injury from sharp edges or parts if the workbench is used incorrectly, as well as from jamming when pushing or pulling the workbench.
- Please note that the workbench may tip over during transport due to its size and height.
