Article Numbers: 309976, 309975, 309974, 309973, 309971, 309970, 309969, 309968, 309967, 309966, 309965, 309964

Safety Instructions:

- The ESD safety sandals are only to be used in ESD environments and enclosed spaces.
- Regular checks for antistatic properties and visible damage are recommended to avoid injury.
- Do not use in damp or wet environments as this may impair antistatic properties and slip resistance.
- Wear the correct size to avoid contact injuries and the risk of falls.
- Not suitable for use in dangerous or hazardous environments where special safety requirements apply.
- There is an increased risk of slipping in wet conditions; insufficient slip resistance on smooth surfaces.
- Choking hazard due to small parts; not suitable for children under 3 years of age and should be kept out of the reach of children.
- Make sure that the sandals are used correctly and in accordance with the instructions to avoid injury.
- Protect the sandals from naked flames and heat sources. Not suitable for extreme heat or cold conditions.
- There are no insulating properties; be careful with electrical contact.
- Complies with the EN ISO 20345-S1P standard. Observe this specification when using.
- The shoes should only be worn in suitable ESD-friendly environments.
