Article Numbers: 320394, 320393, 320392, 320391, 320390, 309999, 309998, 309997, 309996, 309995, 309994, 309993, 309992, 309991

Safety Instructions:

- Safety shoes are not a substitute for other personal protective equipment required in the respective working environment.
- Improper use can result in electrical hazards, especially if the ESD function is not observed.
- Check the condition of the shoes regularly and replace them if they are damaged or worn.
- Wear the shoes only for their intended purpose to ensure their safety and effectiveness.
- All users should be informed about the correct handling and care of safety shoes.
- Avoid contact with chemicals that could damage the material.
- Make sure that the shoes are in good condition before you use them.
- Keep the shoes clean and dry to avoid the risk of mould growth and to ensure material integrity.
- Using the shoes without appropriate training or instructions can lead to injuries.
- Only wear the shoes on firm, dry surfaces to minimise the risk of slipping.
- Regularly check the condition of the sole and materials to ensure safety during wear.
- Please note that the shoes are not suitable for use in explosive atmospheres or extreme weather conditions.
- Risk of suffocation due to improper use of components such as the footbed or insole.
- Risk of injury due to inadequate protection if used incorrectly or insufficient slip resistance on smooth surfaces.
- When using them, always make sure they are the right size and fit to prevent twisting or other foot injuries.
- Be careful on wet or slippery surfaces.
- Clean and use the shoes according to the manufacturer's instructions.
- Carry out regular inspection and maintenance of the shoes in accordance with the manufacturer's instructions.
- Ensuring the correct shoe size and fit to prevent injuries.
- Always wear the correct shoe size to avoid slipping.
- In the event of an accident or injury: Seek medical assistance immediately.
